Notifications include confirmed, probable and suspect cases as at the above indicated time when data are extracted from EpiSurv.

COVID-19 information is being reported by the Ministry of Health nationally.

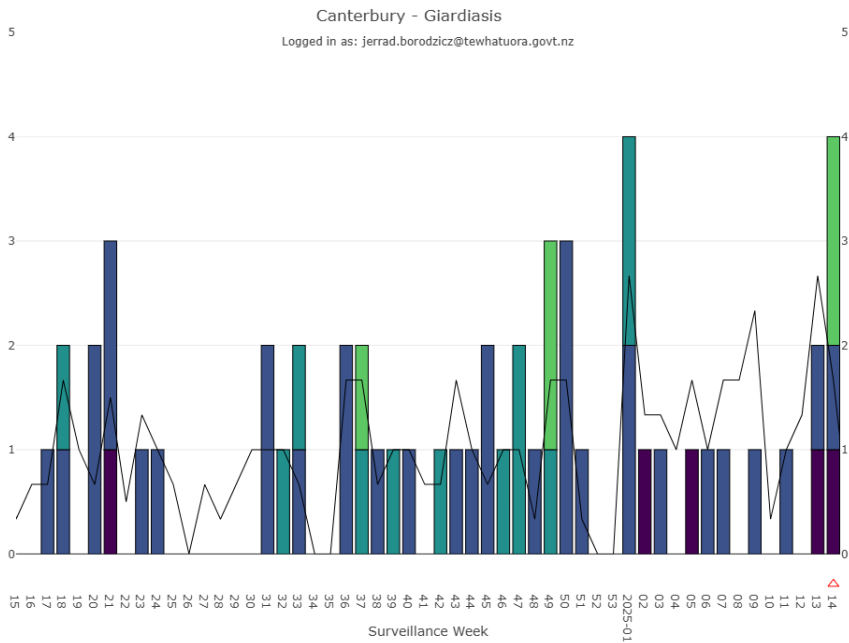

Zika notifications are reported nationally and mpox notifications by region (i.e. Te Waipounamu/South Island).

^{C,S,W} The trend of the incidence of this disease in either Canterbury (c), South Canterbury (s) or West Coast (w) has been graphed (see following pages) because it either has been flagged by the Early Aberration Reporting System (EARS), or is a disease of interest.

Key to the symbols for the graphs of incidence trends

Waitaha Canterbury

South Canterbury

There are no trends to report this week

Te Tai o Poutini West Coast

There are no trends to report this week

For more information about incidence trends for each DHB, please visit ESR Early Aberration Reporting System (EARS) <https://surv.esr.cri.nz/EARS/> (Access to the interactive EARS dashboard requires a user name and password)
